

MEMORY FOAM CUSHION

QUALITY AT THE BEST PRICE

pedidos@dromoseurope.com

QUALITY AT THE BEST PRICE

We offer 2 types of visco cushions: **DRVISCO 1** and **DRVISCOGEL 1**.

Both models are designed to provide **maximum comfort and support**, adapting perfectly to the shape of the body thanks to their memory foam core. This technology responds to body temperature, progressively adjusting and recovering its original shape after each use.

Each cushion **includes two elastic, liquid-impermeable and breathable covers**, ensuring complete protection against spills and stains. The covers are equipped with zippers, making them easy to remove for easy washing and long-term maintenance.

DRVISCOGEL 1 adds a layer of gel that improves temperature regulation, offering a sensation of additional freshness. Both models are ideal for any type of seat, providing pressure relief and superior comfort for long hours of use.
